Audience— Reach a global audience of 13 million art lovers and collectors

“Artsy’s reach into the worldwide art market resulted in the participation of students from 78 cities in 13 countries and 5 continents in the Robert Rauschenberg Foundation’s Emerging Curator Competition—evidence of Artsy’s tremendous educational impact.”

– *Christy MacLear*
Executive Director, Robert Rauschenberg Foundation

Design— Promote shows and collections on your dedicated page

Create an elegant page for your institution so that users can follow you and be automatically notified of any new shows and works you upload. High-resolution images are protected with invisible watermarks by Digimarc, right-click disabled, and download disabled. You also have the option to make images downloadable if you wish—nearly 30,000 open access images are freely downloadable on Artsy.

Tools— Directly manage your page on Artsy

Use our cloud-based Content Management System (CMS) to update your page 24/7. Partners receive analytics via email each month. You may also opt to use our “Shop” feature to list limited editions and original artworks for sale to benefit your nonprofit. It is free for nonprofits to promote your Shows and Collections. Contact us about our special subscription plans for nonprofit sellers.

Team— Passionate museum experts dedicated to fostering access to art

The Artsy institutions team is dedicated to building an encyclopedic database and fostering free online access to world art. Every partner works with an Artsy team member to help you promote your organization to Artsy’s international audience of art lovers, students, collectors, and patrons of the arts.
